

LEXUS LBX

LBX

Lexus has a proud history of pushing boundaries and challenging the status quo. Since its founding in 1989, it has repeatedly pioneered new thinking and new products that have changed people's perceptions and reshaped the luxury car market.

The all-new, all-hybrid electric LBX is the smallest Lexus yet, but fully deserving of its status as a landmark model, one which breaks down the traditional luxury hierarchy.

LBX stands for Lexus Breakthrough Crossover, a compact SUV that embraces contemporary ideas in design and technology while maintaining the distinguishing Lexus qualities of the luxury craftsmanship and Omotenashi hospitality.
