The New ES 300h Self-Charging Hybrid

# ES

At Lexus, we have a lot to be proud of. A pioneer and leader in luxury car electrification for more than 15 years. Over 2 million Lexus Self-Charging Hybrids on the road in every corner of the globe. A comprehensive range of electrified models that stand out for their sophistication, proven quality and award-winning reliability. These may be impressive facts, but for Lexus, performance is more than just numbers. And electrification is more than just batteries and motors. It's the unique chance to define a new kind of driving pleasure.

So when you make the human experience the hero, there's only one question that matters: how do we make you feel? Just drive the new ES 300h Lexus Self-Charging Hybrid sedan and you'll know what we mean.

This is Lexus Electrified.

FEEL STRIKING

**TECHNOLOGY MEETS ARTISTRY.** The roominess, luxury and practicality are all you would expect of an executive sedan with the Lexus signature 'L' proudly showcased on its front grille. As you walk around the graceful curves and lines, the elegant proportions that lend the ES 300h its enticing profile, and the intricate light configuration, you sense a fusion of technology and human artistry. Each element contributing to a level of refinement that makes this executive driving at its best. And makes you feel your best in turn.

Provocation finds fullest expression in the thrilling ES 300h F SPORT, with its purposeful new 19" wheels, exclusive front bumper design and jet black mesh grille – a grille which took months to craft using complex 3D modelling techniques. Tempting though it is, this is not a car to sit back and admire for its contemporary styling. The F SPORT is to be appreciated on the open road.

# DARINGLY ELEGANT

**Its coupé-like profile lends a provocative character to a car that exemplifies sophistication inside and out.**

From the moment your eyes are drawn to it, the daring new front grille and striking quad LED headlights\* of the new ES 300h add a provocative edge to an executive sedan that has style and sophistication written all over it. The individual character of the ES owes much to its sleek roofline, inspired by a sports coupé as much as a spacious sedan, accentuating the car's low stance and enhanced aerodynamics. Distinctive wheels and new Sonic Grey paintwork seem the perfect complement to the smart sportiness of this latest ES 300h, a Lexus that steps outside the conventional categorisation of an executive sedan. It's an intent that spills over to the driver, instilling instant confidence in the person behind the wheel.

\* Feature standard on F SPORT grade. Available as part of the Advanced Visibility Pack on Premium grade

- 01 New quad LED headlights\* are underscored by Lexus 'L'-motif daytime running lights
- 02 Flanked by new air vent mouldings, the signature grille has around 5,000 individual surfaces, with more than 7,000 on the F SPORT
- 03 Now available in Sonic Platinum, the ES 300h sedan features a dynamic coupé-like profile

# SAVOUR THE MOMENT

Impeccable road manners combine with an ultra-responsive Self-Charging Hybrid powertrain for memorable moments at the wheel.

The alluring coupe-like silhouette points to an executive sedan that yearns to be driven. And the moment will not disappoint. Charging itself as you drive, slow down or brake, the acclaimed 4th generation Lexus Self-Charging Hybrid powertrain delivers rapid linear acceleration precisely when you require it, without the need to ever plug in. But it's how it feels that really impresses. The near silence of driving in EV mode. The ultra-refined cruising on the motorway.

Exuding power and control, the ultra-smooth Lexus Self-Charging Hybrid is now more serene than ever. No detail has been overlooked in the quest for a drive befitting the executive nature of this car. Take, for instance, the shutters fitted to the bold new grille, that help minimise road noise and turbulence. Or the intelligent use and location of lightweight materials, coupled with the improved rear suspension, that make for exemplary handling stability and ride comfort.

**ALWAYS IN CONTROL.** Now feel the car's pedals at your feet. They have been redesigned for a more engaging connection between driver and car as you accelerate or brake. Using Drive Mode Select to choose your preferred driving style, you can enjoy driving dynamics that were tuned and perfected by our elite team of engineers and Takumi master drivers. Taking corners with an assuredness that inspires, the ES 300h feels rock solid, its straight-line stability reassuring wherever you drive. Excitement is never at the expense of control.

On the open road, it's as if both car and driver are shedding their business suits for something more free, more relaxing, expressing their true character through the range of emotions that make up a journey at the wheel of the ES 300h. Confidence, fun, exhilaration.

Immersed in the driving experience, it is easy to forget that the ES 300h is more economical and environmentally friendly than most conventional executive sedans. Thanks to its 4th generation Self-Charging Hybrid technology, it operates approximately 50% of the time in EV mode on a mixed course. So you're enjoying significant fuel savings and exceptionally low emissions, without having to worry about driving range.

# THE BEAUTY WITHIN

Experience the interior harmony of the expertly crafted ES cabin.

01

02

To sit at the wheel of the new ES 300h is to experience a special sense of interior harmony. Firstly, there's the low yet ergonomic seating position and the Takumi-sculpted steering wheel, both creating a seamless connection between driver and car. There's the sleek dashboard with instruments like Head-up Display\* positioned so you can concentrate on the road ahead. It's like you're in the journey even before the Lexus Self-Charging Hybrid powertrain has set you in motion.

All around, you will be struck by the attention to detail and craftsmanship which are the hallmarks of the famed Lexus 'Takumi' artisans. Where you can't see it, you can feel it. The sumptuous upholstery, now available in stylish new trims. The exquisite new inlays that typify the handcrafted appearance of the cabin. The classic black finish to the dashboard. All blending together serenely with a feeling of roominess to create a supremely relaxing environment that recalls the calmness and comfort of a living room.

**PASSENGER COMFORTS DESIGNED TO DELIGHT.** Your passengers will feel it too. In the near one-metre rear legroom they enjoy seating which can be adjusted and heated\*\* from a panel on the centre armrest. In the luxury of Lexus Climate Concierge, which creates the ideal climate to suit passengers front and rear. And in the amazing 17-speaker Mark Levinson® Premium Surround Sound system\*\*\* which was specially developed for the ES, and is the perfect complement to an outstandingly quiet cabin, again the product of endless hours of audio work by sound engineers from Lexus and Mark Levinson.

Inside the exciting ES 300h F SPORT, relaxation turns to anticipation. The striking Tahara sports seats, inspired by those in the LC coupé, and unique cabin finishes all signal the sporting intentions of this special car, yet provide a level of luxury that is distinctly Lexus.

\* Feature available as part of a pack on F SPORT and Premium grades  
 \*\* Heated rear seats exclusive to Premium grade  
 \*\*\* Mark Levinson Premium Surround Sound System is standard on Premium grade and available as part of a pack on F SPORT grade

Interior shown is for illustrative purposes only.

"It's a feeling we try to create in Lexus cars, to make the owner and passengers feel totally at home."

Yasuo Kajino,  
ES Chief Designer

03

Interior shown is for illustrative purposes only.

01 Feel the perfect shape of the hand-stitched steering wheel in your hands  
 02 Enjoy Touch Pad, voice or touchscreen control of Lexus Premium Navigation  
 03 Only 12 Lexus 'Takumi' artisans are entrusted with stitching ES seats

Interior shown is for illustrative purposes only.

# SMART THINKING

Technology is everywhere in the new ES, making you feel safer and more empowered than ever at the wheel.

Whatever grade you choose, the new ES 300h envelopes you with more technology than ever before, some of it appearing for the first time in a Lexus and much of it embodying the spirit of Omotenashi. This ancient Japanese philosophy of hospitality, grounded in anticipating another's needs even before they arise, underpins innovations at Lexus. Like an advanced air conditioning system which discharges minute nanoe™ X particles, helping inhibit viruses and bacteria\* on one hand, reducing odours\*\* on the other and at the same time moisturising your hair and skin.

**BETTER CONNECTED.** Lexus Link connectivity, too, is rooted in Omotenashi. Enjoy the convenience and peace of mind of being able to track your journey and navigate to your final destination once you've parked. With Apple CarPlay\*\*\* and Android Auto®, you can display and access smartphone apps on the 12.3" touchscreen, which has been moved forward to make it more driver-focussed and easier to view.

**IN THE SAFEST OF HANDS.** Feel reassured with Lexus Safety System + (LSS+), which incorporates two important new features on the ES 300h. Intersection Turn Assist detects oncoming vehicles and crossing pedestrians when turning at an intersection, while Emergency Steering Assist helps guide your steering movements when there is a vehicle, cyclist or pedestrian very close to or in your lane. Another innovation on the ES 300h is curve speed reduction, which automatically decelerates if speed needs to be reduced on a bend while using the Dynamic Radar Cruise Control. The Bladescan® Adaptive High-beam System\*\*\*\* helps you recognise road users and road signs more clearly and at a greater distance, yet without dazzling oncoming cars.

\* More than 99% virus and bacteria inhibition by 1 hour exposure of nanoe™ X. Japan Food Research Laboratories, Report No. 20073697001-0101, 15038623001-0101.

\*\* Odour intensity reduced more than 1.8 by 1 hour exposure of nanoe™ X. Panasonic Corporation Product Analysis Center, Report No. BAA33-150318-M35

\*\*\* Apple CarPlay is a trademark belonging to Apple Inc. Please comply with usage guidelines stipulated by Apple Inc. Apple CarPlay is an application provided by Apple Inc.

\*\*\*\* The functions and services of Apple CarPlay may be changed or terminated without notice due to specification changes of the operating system, hardware, software, or Apple CarPlay®.

\*\*\*\*\* This feature is standard on F SPORT grade. Available as part of the Advanced Visibility Pack on Premium grade.

01 Intersection Turn Assist on the new ES 300h detects oncoming vehicles and pedestrians when turning at an intersection

## POWERING THE DREAM

In the 1990s, thirsty engines were the unchallenged norm for luxury cars. As the millennium turned, the world was waking up to global warming and the need to reduce emissions through electrification. A new drivetrain solution was required. And the first luxury carmaker to step up to the mark was Lexus.

With all key hybrid components developed and manufactured in-house, our electrified hybrids have proved themselves to be uniquely refined, exhilarating to drive and exceptionally durable.

Two decades on, our dream at Lexus of zero-emission luxury travel has long become a roadmap. With each electrified car we launch, the final destination edges ever closer.

### A PIONEER AND LEADER IN LUXURY CAR ELECTRIFICATION

Since the launch of our first luxury sedan over 30 years ago, Lexus has become a synonym for exceptional design, quality and refinement. Perhaps most importantly, we're also a pioneer and leader in luxury car electrification. A company that never stops innovating and working to anticipate drivers' needs. It's this unique approach that resulted in the world's first luxury hybrid in 2005 - the RX 400h SUV.

### SELF-CHARGING HYBRID, PLUG-IN HYBRID OR ALL-ELECTRIC

Today, Lexus offers six amazing self-charging hybrid models and the majority of premium hybrids on the road bear the Lexus badge. No other luxury carmaker can rival our experience in developing, building, servicing and recycling hybrids. Our self-charging hybrids do not require plugging in and are capable of driving in Electric Vehicle (EV) mode, using no fuel and generating zero emissions.

Spearheading our new 'Lexus Electrified' vision, we introduced the first all-electric Lexus, the UX 300e, in 2020. Marking the next chapter of electrification, the first Lexus Plug-in Hybrid, the NX 450h+, has now extended our electrified line-up even further, with a new dedicated electric vehicle platform to follow.

### THE FUTURE IS 'LEXUS ELECTRIFIED'

Despite the tremendous success of the Lexus Self-Charging Hybrid range, resting on our laurels is not an option. Which is why we launched the 'Lexus Electrified' vision and the LF-30 'electrified' concept. Created to transform driving enjoyment to the next level, 'Lexus Electrified' is an integrated approach to electric powertrains, advanced posture control and other electrification technologies. Demonstrating our vision, the LF-30 'electrified' concept's bold exterior and driver-centric cockpit embody everything that 'Lexus Electrified' stands for. Benefiting from over two decades of electrification experience, with its four in-wheel electric motors, steering-by-wire and Lexus Advanced Posture Control, it delivers a driving experience like no other.

# PIONEERED BY LEXUS

## FEEL THE DIFFERENCE OF DRIVING A LEXUS SELF-CHARGING HYBRID

### WHAT IS A LEXUS SELF-CHARGING HYBRID?

Combining the power of an ultra-smooth petrol engine with one or more advanced electric motors, Lexus Self-Charging Hybrids have always set the benchmark for electrification of luxury cars. For your convenience, Lexus hybrids charge themselves while you drive, slow down or brake, meaning you never have to plug them in or worry about battery range. Sit back and enjoy an amazing blend of power and control, content in the knowledge that your Lexus is more efficient and is producing considerably fewer emissions than any conventional engine.

### WHY IS ELECTRIFICATION IMPORTANT?

In order to curb greenhouse gases, and to reach our goal of becoming a zero emissions company by 2050, we believe that effective vehicle electrification is essential. Since the launch of the RX 400h, the world's first electrified luxury car, Lexus has taken the initiative in developing and promoting the widespread use of eco-friendly Self-Charging Hybrids. As well as reducing the emissions of our cars, by 2050 we plan to achieve zero CO<sub>2</sub> emissions from all Lexus manufacturing plants and minimise their water usage.

### WHAT IS IT LIKE TO OWN A LEXUS HYBRID?

We work hard to ensure your Lexus hybrid is a joy to drive and own. With over 475,000 Lexus hybrids on European roads today, all are built in a dedicated ultra-modern production plant in Japan to the exacting quality standards that consistently net Lexus hybrids reliability awards across the globe. Aside from the striking smoothness and refinement, you'll appreciate the substantially lower running costs - not just fuel, but reduced expenditure on brakes, tyres and other components, thanks to the regenerative braking and advanced power control systems.

Learn more: [www.lexus.ie/hybrid](http://www.lexus.ie/hybrid)

## ZERO EMISSIONS AT LOWER SPEEDS

When starting off and at lower speeds, the powerful front electric motor propels the ES 300h, with electric power supplied by the hybrid battery. At this point your car is almost silent, uses no petrol and produces zero emissions.

## NEAR SILENT AT CRUISING SPEEDS

Lexus Self-Charging Hybrids are smooth and relaxing to drive. At higher speeds, the ultra-smooth petrol engine cuts in quietly and receives assistance from the electric motor when required. With the engine running at optimal speed, surplus power can be used to charge the battery. Alongside low emissions and fuel consumption, this near perfect distribution of petrol and electric power also provides the extraordinary driving enjoyment which characterises the ES 300h.

## RAPID LINEAR ACCELERATION

Lexus Self-Charging Hybrids are fun to drive. When you accelerate hard, the power of the electric motor instantaneously supplements the ES 300h's 2.5-litre petrol engine. Together they deliver a potent surge of torque, providing rapid linear acceleration precisely when you need it.

## REGENERATIVE BRAKING, NO PLUGGING IN

When decelerating, coasting, or when you come to rest, the petrol engine often turns off silently, cutting emissions to zero. On braking, or when you take your foot off the accelerator, regenerative braking harnesses your car's kinetic energy (this is wasted in conventional cars). The ES 300h converts this into electrical energy for storage in the hybrid battery, together with power generated whilst driving at higher speeds, which means it never needs plugging in.

# THE ES 300h

Powered by a 4th generation Lexus Self-Charging Hybrid powertrain, the new ES 300h executive sedan features a chassis that allows for a dynamic exterior design and an extremely refined drive. Inside, it is exceptionally spacious and ultra-quiet, with a level of craftsmanship rarely found in this kind of car. Importantly for all on board, the ES is equipped with the latest Lexus Safety System + that resets benchmarks for safety performance.

## 01. 4TH GENERATION LEXUS HYBRID DRIVE

Equipped with the very latest Lexus Self-Charging Hybrid system, the ES 300h boasts extremely refined performance with better fuel efficiency and lower CO<sub>2</sub> emissions (126-124 g/km) than conventional petrol- or diesel-powered executive sedans. It couples an ultra-efficient 2.5-litre Atkinson cycle four-cylinder petrol engine with a lighter, more compact electric motor. Total system power is 218 DIN hp/160 kW and combined cycle fuel consumption is from 5.6 l/100 km.

## 02. HIGHLY EFFICIENT PETROL ENGINE

The 2.5-litre petrol engine incorporates fast-burn combustion technology that makes it one of the most thermally efficient engines ever built. The result is more power without increasing emissions or fuel consumption. Features that help achieve such impressive results include straight intake ports, increased valve angles and laser-finished valve seats. A variable capacity oil pump, multi-hole injectors, VVT-iE on the intake valves and a variable cooling system also contribute to the engine's impressive heat and combustion management.

## 03. ULTRA-SMOOTH HYBRID TRANSMISSION

Engineered to smoothly blend power delivered by the electric motor/generator and 2.5-litre engine, this transmission utilises a multi-axle arrangement of the electric motors to reduce the overall length of the transaxle by nearly 30 mm. The traditional planetary gear set is replaced by a parallel shaft gear and a multi-function gear. This incorporates a power split planetary ring gear, parking gear and counter drive gear into one compact unit.

## 04. COMPACT HYBRID BATTERY

Engineered to last the life of the car, the nickel-metal hydride battery, which powers the electric motor and stores power generated by driving and braking, is positioned underneath the back seat instead of in the boot. This is made possible by minimising the height of the battery and the adoption of a more compact cooling system. Placing the battery under the seat not only frees up luggage space, it also improves weight distribution for better handling.

DYNAMIC

- 18" alloy wheels, medium grey machined finish design, 235/45 R18 tyres
- L-mesh signature grille
- Headlights, bi-LED with Automatic High Beam (AHB)
- Tahara leather
- 12.3" touchscreen display
- 10-speaker Pioneer® audio system
- 7" colour multi-information instrument cluster
- Wireless smartphone charger

PREMIUM

- 18" alloy wheels, hyper-chrome coating, 235/45 R18 tyres
- L-mesh signature grille
- Headlights, bi-LED with Automatic High Beam (AHB)
- Semi-aniline leather upholstery
- 12.3" touchscreen display
- 17-speaker Mark Levinson® Premium Surround Sound System with PurePlay
- Lexus Premium Navigation
- 3 zone climate control with humidity sensor
- Panoramic View Monitor (PVM) with rear pedestrian detection
- Boot lid, electric lift and close with hands-free opening function
- Heated front and inner rear Seats
- Ventilated front seats
- Power reclining rear seats

Quad LED Headlamps shown are available as part of the Advanced Visibility Pack  
Interior shown is for illustrative purposes only

F SPORT

- 19" alloy wheels, black F SPORT design, 235/40 R19 tyres
- F-mesh signature grille
- Headlights, quad LED with BladeScan® Adaptive High-beam System (AHS)
- F SPORT Tahara leather upholstery
- Adaptive Variable Suspension
- 12.3" touchscreen display
- 10-speaker Pioneer® audio system
- Lexus Premium Navigation
- 8" colour multi-information instrument cluster

01/02

03

04

05

06

**01. REAR SPOILER**

A bespoke rear spoiler enhances the aerodynamic performance of the ES 300h.

**02. REAR BUMPER**

The ES 300h rear bumper moulding creates a strong and powerful stance.

**03. BI-LED HEADLIGHTS**

Providing excellent visibility at night, these new energy-saving headlights use the same light source for both high and low beam. They come with distinctive Lexus-signature L-shaped Daytime Running Lights.

**04. QUAD LED HEADLIGHTS**

These headlights consist of four ultra-small LED units that deliver exceptional light distribution in an appealing new design. Equipped with sequential turn signal indicators which create a dynamic flow of light to convey the intended change of direction, they come with multi-weather lights to help maintain a good field of view in foggy driving conditions.

**05. 18" ALLOY WHEELS**

The redesigned two-tone colour scheme combines a machined finish with a dark-grey metallic coating to create a sporty and luxurious new look.

**06. 18" ALLOY WHEELS**

Noise-reducing wheels with a hyper-chrome metallic coating. The wheel size is accentuated by five dynamic multi-spindle spokes.

07

08

09

10

11

**07. CORNERING LIGHTS**

LED cornering lights provide extra illumination to the area close to the car when turning left or right or when cornering.

**08. MULTI-WEATHER LIGHTS**

When fitted with Adaptive High-beam System (AHS), multi-weather lights reduce glare when light is projected forward in foggy conditions at night.

**09. COUPÉ-LIKE SILHOUETTE**

In a break with past generations, the design features a sleek roofline that emphasises the vehicle's lower stance and smooth aerodynamics.

**10. SUNROOF**

An electric, tilt and slide, glass sunroof adds a feeling of freedom, spaciousness and light to the ES cabin.

**11. HANDS-FREE POWER BOOT LID\***

For convenient loading and unloading, the ES is available with a hands-free power boot lid. This can be opened and closed simply by moving your foot in front of a sensor located underneath the rear bumper while you are carrying the smart key.

\* Feature exclusive to Premium grade

01/02/03/04

05/06

07

08

Interior shown is for illustrative purposes only.

**01. DRIVER-FOCUSED COCKPIT**

To reduce eye movement and distraction, the new 12.3" touchscreen has been moved closer to the driver with all important instruments and displays positioned close to their view ahead. For seamless interaction, frequently used controls, such as Drive Mode Select and Remote Touch, are concentrated around the driver.

**02. S-FLOW CLIMATE CONTROL / CLIMATE CONCIERGE**

S-Flow Climate Control intelligently manages the interior climate according to ambient conditions, ensuring excellent comfort and fuel economy. It can even detect if seats are occupied, and regulate the climate accordingly. On the new ES 300h, a sensor detects cabin humidity and cabin/windscreen temperature to ensure the windscreen does not fog up. Climate Concierge also discharges minute nanoe™ X particles, helping inhibit viruses and bacteria\* on one hand, reducing odours\*\* on the other and at the same time moisturising your hair and skin.

**03. STEERING WHEEL**

This three-spoke steering wheel combines real leather with finely grained wood\*\*\* and fits snugly and comfortably into your hands. Available with heating for colder mornings, switches control audio, telephone, voice recognition, multi-information display, Dynamic Radar Cruise Control and Lane Tracing Assist.

**04. HEATED AND VENTILATED SEATS**

Seat heaters are available for the driver and front passenger on the ES. On hot days, taking cold air directly from the air conditioner, the unit helps cool the occupants quickly. In addition, heated rear seats are available\*\*\*.

**05. LEATHER SEATS**

The tahara leather or semi-aniline leather seats on the ES are an outstanding example of the highest levels of Japanese 'Takumi' craftsmanship. The leather is of impeccable quality and the stitching is executed with immense precision.

**06. FRONT SEAT ADJUSTMENT**

The ergonomic driving position reduces fatigue and provides an excellent feeling of envelopment. Up to 16-way seat adjustment mechanisms allow various driving positions for a wide range of drivers (up to 14-way for front seat passengers). For long journeys, up to 4-way lumbar support adjustment is available on the Premium grade.

**07. REAR SEAT CONTROL PANEL\*\*\***

A control panel allows rear seat passengers to operate the air conditioning, audio, rear seat heater, rear seat reclining and sunshade.

**08. REAR SUNSHADE\*\*\***

To enhance comfort in hot weather, a powered rear sunshade is available, which rear seat passengers can adjust for the rear, door and rear quarter windows.

\* More than 99% virus and bacteria inhibition by 1 hour exposure of nanoe™ X. Japan Food Research Laboratories, Report No. 20073697001-0101, 15038623001-0101.  
 \*\* Odour intensity reduced more than 1.8 by 1 hour exposure of nanoe™ X. Panasonic Corporation Product Analysis Center, Report No. BAA33-150318-M35  
 \*\*\* Features exclusive to Premium grade

01

02/03

04

05

06

07

**01. HIGH RIGIDITY / LIGHTWEIGHT BODY / SUSPENSION**

The ES has an extremely rigid body in order to deliver a ride that is particularly refined and stable. Constructed using Laser Screw Welding, the use of adhesive bonding has been increased. This, along with the extensive use of lightweight materials has helped minimise weight to improve fuel economy. In addition, the suspension tower brace in the engine bay and the redesigned rear suspension member further strengthen the rigidity of the body.

**02. AERODYNAMICS**

The new ES features a near-flush under body that not only contributes to good fuel economy but also reduces wind noise and turbulence. To prevent noise from entering the cabin, door seals were improved, holes in the chassis and upper back of the car were minimised and the body sealant and panel alignment optimised. The optimised grille shutter features an air guide to reduce wind noise.

**03. HYBRID ACOUSTICS™**

Hybrid Acoustics™ uses a 3-layer dash inner silencer in which a noise insulation sheet is installed between two felt layers. This means travelling in the ES 300h is always a highly rewarding experience, even at higher speeds.

\* Not available on ES 300h F SPORT.

**04. SWING VALVE SHOCK ABSORBER\***

A swing valve shock absorber has been engineered for the ES 300h. Generating damping force for low-speed driving and motorway cruising, it delivers excellent steering response and stability, as well as superb ride comfort for all on board.

**05. ACTIVE NOISE CONTROL**

Active Noise Control suppresses any booming noise in the cabin generated by the engine. Noise-cancelling waves are outputted through the car's speakers which reduce the booming effect throughout the car.

**06. DRIVE MODE SELECT**

The Drive Mode Select switch is positioned beside the meter hood bezel so that it can be operated without compromising your line of sight or changing your driving position. Eco, Normal and Sport modes are standard, except on the ES 300h F SPORT, which comes with Eco, Normal, Custom, Sport S and Sport S+ modes.

**07. ELECTRIC POWER STEERING**

A steering rack mounted Electric Power Steering, as opposed to a conventional steering column mounted system, gives more refined feedback from the road and a sense of unity with the car.

01

02

03

04

05

**01. 10-SPEAKER PIONEER® SYSTEM**

The ES is available with a Pioneer® 10-speaker audio system which faithfully reproduces the original sound while retaining the whole live ambience of the music. Pioneer®'s digital signal processing technology is used to reproduce CD-quality sounds from MP3 compressed audio files. The speakers at the side of the instrument panel have been installed at the optimum angle for achieving a dynamic and rich sound field. Thus, sound is efficiently delivered to the listener from the speakers both directly as well as indirectly, having been reflected off the car windows.

**02. 17-SPEAKER MARK LEVINSON® PUREPLAY\***

The design architecture of the breakthrough Mark Levinson® PurePlay system was created to immerse driver and passengers in the most powerful, precise and pure audio experience yet. PurePlay leverages multiple technologies to provide outstanding in-vehicle performance: precision staging, world-class speaker design and placement, and unparalleled tuning and decompression technology. A total of seven Unity™ speakers are placed at shoulder height around the cabin, enhancing acoustics and creating a tonal synergy. The system also features two elliptical subwoofers in the front doors and the biggest subwoofer yet (265 mm) underneath the rear window.

**03. OPTITRON INSTRUMENTATION**

The ES 300h features crisp and clear Optitron instrumentation with a central 7-inch TFT (Thin Film Transistor) LCD (Liquid Crystal Display).

**04. HEAD-UP DISPLAY\*\***

Vehicle data is projected in colour directly onto the windscreen. The Head-Up Display, measuring 260 mm x 97.5 mm, lets you check data like navigation commands, audio settings or safety features without taking your eyes off the road ahead.

**05. EMERGENCY RESPONSE SYSTEM-eCALL**

For your safety, eCall provides both manual and automatic emergency call functionality. Following a collision with airbag deployment, emergency services are automatically contacted and receive the vehicle's exact location and identification. You can also reach emergency services by pressing the emergency call button at any time.

\* Feature is standard on Premium grades. Available as part of a pack on F SPORT grade.  
 \*\* Feature available as part of a pack on F SPORT and Premium grades.

02

03

03

04

05

**01. LEXUS PREMIUM NAVIGATION**

With vivid 3D graphics and many mapping options such as 'Point Of Interest search', the latest maps can be updated using 'Over The Air' technology. For added convenience, the system also includes an electronic owner's manual. To enhance your navigation experience, online services such as online traffic, parking search, petrol station search, weather forecast, Google Search or Google Street View are available.

**02. SMARTPHONE INTEGRATION**

With Apple CarPlay® and Android Auto®, the ES allows you to easily display and access some of your smartphone's apps on the central display screen.

**03. LEXUS LINK - CONNECTED SERVICES**

Connecting to the new Lexus Link app transforms your ES into a connected car. Lexus Link gives you seamless access to connected services like:

- Driving Analytics: Tracks your journeys, driving style and business trips. The ES 300h also offers bespoke Hybrid Coaching advice to help lower both harmful emissions and fuel consumption
- Find my Car: Locates your Lexus and guides you back to it
- Share to Car: Lets you plan a route on another device and send it to your Lexus, while 'Car to Door' guides you on foot to your final destination once you are parked
- Car status: Amongst many warnings, notifies you if you've left the car windows open or forgotten to switch off the headlights. You can also check if your car is locked, or your alarm activated.

**04. TOUCH PAD**

You can control the ES sedan's main display screen using a Touch Pad mounted on the centre console or by voice commands. The Touch Pad interface has been designed to give you the intuitive feel of a smartphone, with operations such as scrolling, pinching or tapping.

**05. WIRELESS SMARTPHONE CHARGER**

You can charge compatible smartphones via the inductive wireless battery charger, conveniently positioned on the ES's centre console.

01

Interior shown is for illustrative purposes only.

02

02

**01. AIRBAGS**

Extending its safety performance even further, the ES has a comprehensive shield of ten airbags as standard. These include driver and front passenger airbags and knee airbags, side airbags front and rear, and curtain airbags covering all side windows.

**02. LEXUS SAFETY SYSTEM + / 5-STAR NCAP RATING**

On its launch, the ES 300h was named both 'Safest Large Family Car' and 'Safest Electric/Hybrid Car' by Euro NCAP. Innovative technologies such as Lexus Safety System + that includes a pioneering Pre-Collision System, now with pedestrian detection at night and bicycle detection during daytime, contribute to its class-leading Euro NCAP 5-star rating.

**03. PRE-COLLISION SYSTEM**

Already capable of detecting oncoming vehicles and pedestrians during daytime, the latest Pre-Collision System on the ES can now also detect pedestrians at night and bicycles during daytime. To achieve this, the camera sensitivity and dynamic range have been enhanced to help reduce accidents in the dark, for example, when a pedestrian in front of an oncoming vehicle is difficult to see due to the vehicle's lights. Furthermore, the millimetre wave radar detection area angle has been widened, enabling bicycles to be detected during daytime. If the system judges that the possibility of a collision is high, the brakes are automatically applied to support collision avoidance, or reduce damage in the event of a collision.

**04. DYNAMIC RADAR CRUISE CONTROL**

The system uses the millimetre wave radar sensor and camera to detect the preceding vehicle and provide control to maintain an appropriate distance. If the preceding vehicle stops, the system will stop the ES. When the preceding vehicle starts off again, the ES will start off and continue following. This system reduces the burden on the driver in situations requiring frequent starting and stopping.

03/04

05

06

07

08

**05. ROAD SIGN ASSIST**

The Road Sign Assist (RSA) system on the ES recognises traffic signs and provides information to the driver in the multi-information display. Linked to Dynamic Radar Cruise Control (DRCC), the vehicle's speed setting can be quickly reset in accordance with the speed limit recognised by RSA. All it takes is the touch of a button.

**06. LANE TRACING ASSIST**

Lane Tracing Assist helps the driver keep the vehicle in the centre of the lane. It is also capable of providing assistance when driving around bends with a tighter radius than the previous system. If the system determines that there is a possibility of the vehicle departing from the lane, it will switch to departure prevention control, providing support for returning the vehicle to the centre of the lane.

**07. INTERSECTION TURN ASSIST**

New to the ES, Lexus Safety System+ can now use Intersect Turn Assist to detect oncoming vehicles and pedestrians when turning right or left at an intersection.

**08. CURVE SPEED REDUCTION**

Also new on the ES, while using Dynamic Radar Cruise Control, Curve Speed Reduction will decelerate the car automatically when it determines the vehicle speed is too high for the curve you are negotiating.

**09. EMERGENCY STEERING ASSIST**

When a vehicle, pedestrian or cyclist is very close to or in your path of travel, Emergency Steering Assist on the new ES will assist your steering movements to enhance the car's stability and prevent accidental lane departure.

Under no circumstances should Lexus Safety System + be used to replace your driving skills at the wheel. Please read the instructions very carefully before operating the system and remember the driver is always responsible for safety. Details of specifications and equipment are subject to change to suit local conditions and requirements. Please enquire at your local Lexus Authorised Retailer.

01

02

03

**01. PARKING SUPPORT ALERT AND BRAKE**

Giving greater confidence when parking at close quarters, Parking Support Alert uses clearance sonar, rear side radar and rear camera detection to detect obstacles around the car, as well as pedestrians and vehicles approaching from the rear. It alerts the driver with a buzzer and a warning in the central display and relevant door mirror. If necessary, Parking Support Brake will apply the brakes to avoid a collision.

**02. BLIND SPOT MONITOR**

Radar devices mounted in the rear bumper detect vehicles in adjacent lanes that are not visible in the door mirrors. If the driver is indicating to change lane and a vehicle enters the blind spot, a warning signal appears in the relevant door mirror.

**03. TYRE PRESSURE WARNING SYSTEM**

Receiving data from a sensor installed in each tyre, the multi-information display shows tyre pressure data and warns accordingly should pressure drop in one of them. The system can reduce the risk of a puncture, while helping to improve fuel economy and tyre life.

04

05

**04. BLADESCAN® ADAPTIVE HIGH-BEAM SYSTEM**

After 13 years of research and development work - and marking another world-first for Lexus - BladeScan® Adaptive High-beam System (AHS)<sup>1</sup> gives drivers an enhanced field of vision compared to conventional LED headlights. It works by projecting light from twelve LEDs onto a blade-shaped mirror rotating at 6000 rpm and then through a lens to produce a headlight beam. Exhaustive tests with BladeScan®AHS show that pedestrians and road signs can be seen earlier (56 m ahead compared to 32 m for conventional systems) and without the risk of dazzling other drivers.

**05. LEXUS PARKING ASSIST / PANORAMIC VIEW MONITOR**

The Lexus Parking Assist Monitor helps you reverse into parking spaces. On the central display it shows a video image of the space into which you are reversing, and overlays guidelines to facilitate you steering the car. For easier driving in confined spaces, the Panoramic View Monitor<sup>2</sup> provides a near-360° view around the entire vehicle. It also creates a virtual 3D picture of your ES, with on-screen guides to assist close-quarter manoeuvring in the city.

<sup>1</sup> Standard on F SPORT grade, available as part of the Advanced Visibility Pack on Premium grade.

<sup>2</sup> Standard on Premium grade.

\* People and obstacles that show in the monitor differ from the actual position and distance. Do not rely completely on the monitor and, for safety, make sure you check around the vehicle with your own eyes when driving.

**01. F SPORT GRILLE**

The exclusive F SPORT grille and front bumper design sets the ES 300h F SPORT model apart. Finished in jet black, the grille's complex mesh required more than six months of intensive computer modelling to design.

**02. 19" ALLOY WHEELS**

Inspired by those on the LC luxury coupé and LS flagship sedan, exclusive 19" 5-twin-spoke alloy wheels feature a new dark glossy black coating that matches the front grille treatment and accentuates the allure of the ES 300h F SPORT.

**03. F SPORT STEERING WHEEL**

Featuring the F SPORT logo, you'll sense a special kind of connectedness every time you take this wheel in your hands. Finished in perforated leather, the F SPORT gearshift design matches the steering wheel to create an exciting sports ambiance.

**04. F SPORT SEATS**

Now available in a striking new two-tone trim, enjoy figure-hugging F SPORT seats similar to those on the LC sports coupé. All stitching on the seats, steering wheel, instrument panel and gearshift is overseen by our 'Takumi' master craftspeople.

**05. F SPORT SCUFF PLATES & DRILLED SPORT PEDALS**

Giving durable protection, F SPORT scuff plates are finished with a brushed aluminium look and are inscribed with the Lexus logo. Offering excellent grip characteristics, drilled aluminium pedals reflect the motorsport design heritage of the ES 300h F SPORT.

**06. ADAPTIVE VARIABLE SUSPENSION**

A new actuator on the ES F SPORT model's Adaptive Variable Suspension (AVS) expands the flow path of the hydraulic control solenoid's oil flow control valve. This is now responsive to low damping forces and achieves high-quality ride comfort while improving steering response and stability by expanding the range of the damping force.

**07. PERFORMANCE DAMPERS**

The ES 300h F SPORT model has performance dampers front and rear to increase the rigidity of the chassis. This way the actual suspension components cannot be influenced by chassis flex or vibration and the interior is also shielded from these vibrations.

**08. F SPORT INSTRUMENTS**

This F SPORT central meter features innovative 8" Thin Film Transistor technology and a design inherited from the iconic Lexus LFA supercar. The display has a tachometer needle and digital speed indicator, as seen on Lexus F marque cars.

**09. ES Sport S+ MODE**

Standard on the ES 300h F SPORT, use Drive Mode Select to engage Sport S+ mode that adjusts suspension, steering and throttle response to realise sportier driving performance.

**10. F ALUMINIUM INLAY**

With a look inspired by traditional Japanese swords, 'Hadori' cabin trim displays a three-dimensional effect that varies depending on the viewing angle.

**01. LEXUS PROTECT**

Stone chips, UV rays, road salt, flying bugs – your vehicle’s paintwork is constantly under attack, spoiling its appearance and reducing your vehicle’s value. Now, you can maintain a showroom fresh appearance with Paint Protection Films. Virtually invisible when applied, they provide the ultimate in long lasting protection and are available for the most vulnerable areas of your vehicle.

Image for illustrative purposes only

**02. ESSENTIAL PACK**

Designed to protect the rear bumper paintwork against scratching when loading or unloading the boot, this accessory will keep your ES in perfect condition for many years to come. Added to this is a tough, flexible plastic trunk liner with a non-slip surface pattern and a raised lip around the edges to comprehensively protect the luggage space carpet against mud, dirt, sand and liquids.

**03. PREMIUM PACK**

Lexus scuff plates add a stylish design feature while also protecting the door sill paintwork. Their brushed aluminium finish is highlighted by subtle logo illumination.

**04. VERTICAL CARGO NET**

Strong, woven, black nylon net with two compartments for holding small items securely in your car’s boot area. The net fixes neatly on to pre-fitted side and floor hooks.

**05. RUBBER FLOOR MAT**

Tailored fit rubber floor mats help protect your carpets against the very worst conditions that you or your passengers dare to tread inside.

**06. TRUNK MAT**

This tough, practical and easy to clean mat gives you choices for the appearance and protection of your boot space.

# A WORLD OF COLOUR

A unique process at Lexus produces colours so lustrous that they appear to react to changing light conditions.

Lexus designers recognise the emotional pull of colour on a car. This explains why they never use off-the-shelf colours, but develop their own, in a process that can take two years. In fact, the same attention to detail that goes into sculpting the design of a Lexus is replicated in the care that goes into the paintwork that will best show off that design.

Around 30 unique colours make up the Lexus palette. These tones are arrived at only after the colour designers have discarded hundreds of others, a process requiring a trained eye and a mastery of chromogenics - the science of pigments and colour compounds.

Bending test panels to mimic car contours, designers scrutinise colours under floodlights, in sunlight and shade, and in different months of the year. Their expert eyes are uncanny in selecting the right tones to complement each model. In the case of the new ES, for example, Sonic Grey is among the colours which perfectly accentuate the elegant poise of this executive sedan.

Then there's the process of developing and applying that colour, from the lab technicians mixing the paint to the paint shop crew who ensure a flawless, uniform coat. And on to inspections where, under RGB lighting, imperfections as small as 0.5 millimetres are detected. By hand.

Lexus has developed a five-coat process which results in a level of depth and luminescence not possible with traditional paintwork. Between layers, the paintwork is gently wet-sanded by hand under the supervision of 'Takumi' master craftspeople, a painstaking process to ensure each fresh surface is blemish-free.

Even to the untrained eye, the evenness and glossiness of this paint is evident. Just watch as these colours appear to change as the light conditions change.

<sup>1</sup> Combined engine and electric motor

<sup>2</sup> Tentative values shown, with two occupants.

<sup>3</sup> The fuel consumption and CO<sub>2</sub> values are measured in a controlled environment on a representative production model, in accordance with the requirements of the new WLTP European Regulation EC 2017/1151 and its applicable amendments. For each individual vehicle configuration, the final fuel consumption and CO<sub>2</sub> values may be calculated based on the ordered optional equipment. The fuel consumption and CO<sub>2</sub> values of your vehicle may vary from those measured or calculated values, as driving behaviour as well as other factors (such as road conditions, traffic, vehicle condition, tyre pressure, load, number of passengers, etc.) have an influence on a car's fuel consumption and CO<sub>2</sub> emissions. For more information regarding the new WLTP test method, please visit: [www.lexus.ie/wltp#nedc](http://www.lexus.ie/wltp#nedc)

<sup>4</sup> Luggage volume is calculated as per the VDA method.

Please note: further Technical Data, including any updates, can be found at [www.lexus.ie](http://www.lexus.ie)

# BE OUR GUEST

How we treat our customers is guided by an ancient Japanese philosophy of hospitality.

Translated from the Japanese as 'hospitality and polite service', Omotenashi is about much more than excellence of service; it is an ancient concept centred around anticipating the needs of another, even before they arise. Omotenashi influences how we design and engineer our cars at Lexus, and equally how we treat you, the Lexus owner. Not just at the point of sale but over the life of your car. We want you to feel valued in every interaction you have with us. To feel more than a customer.

Whether as a private or fleet driver, you'll experience Omotenashi each time you visit our showrooms. In the warm reception on hand from friendly staff intent on welcoming you as if you were a guest in their home. In the inviting atmosphere and impressive facilities of the lounge, where you can avail of refreshments, catch up on news, enjoy high-speed Internet or carry on with your work. And in the knowledge that our Lexus technicians are working with precision and efficiency to get you back on the road with minimum interruption to your day.

## PEACE OF MIND WITH LEXUS RELAX\*

Lexus Relax provides you with complete peace of mind even after your manufacturer's warranty expires. Drive away carefree with an extra 12 months warranty every year you service your Lexus with us.

## LEXUS EASY MOBILITY SOLUTION\*

From financing to insurance, maintenance and even tyres, the Lexus Easy flexible mobility solution is the easy way to drive and look after a Lexus.

It's not only cars that make Lexus unique. It's the philosophy which permeates everything we do and which extends to an ownership experience that makes you feel special. Just as a guest should.

\* Lexus Relax and Lexus Easy are not available for all markets. Please enquire at your local Lexus Authorised Retailer.

## DISCOVER MORE ONLINE

Find out more about the new ES 300h online. Take time to explore which equipment grade best suits your lifestyle, learn about your world-class service and finance offerings and sign up for our regular newsletter. And if you're interested in how the new ES 300h feels to drive, you can book a test drive with your local Lexus Retailer.
