

THE ALL-NEW RX

RX 450h+ PLUG-IN HYBRID

At Lexus, we have a lot to be proud of. A leader in luxury car electrification for nearly 20 years. Over 2 million Lexus Self-Charging Hybrids on the road across the globe. Cars that stand out for their sophistication, proven quality and award-winning reliability.

These are impressive facts, but for Lexus, performance is more than just numbers. And electrification is more than just batteries and motors.

It's the chance to define a new kind of driving pleasure, where each journey radiates confidence, control and comfort. With your Lexus responding instantly to your every move, you'll enjoy a luxury that is personal, a luxury rooted in the uniquely crafted connection between car and driver.

Just drive the new RX 450h+ Plug-in Hybrid and you'll know what we mean.

This is Lexus Electrified.

FEEL STRIKING

"It's clearly an RX, but a completely new one. It's oozing with dynamic design and beauty inherited from past RX generations."

KENICH HIRAI,
RX EXTERIOR DESIGNER

CREATED TO STAY AHEAD

FROM FIRST GLANCE THE STUNNING ALL-NEW
LEXUS RX MAKES ITS MARK.

The story of the all-new Lexus RX excites from the start, with an iconic luxury SUV created to turn heads and stay ahead. Our designers have built a car that exudes determination from every angle, impressively stable and spacious, yet with dynamic pretensions that are evident even at a standstill. You can feel there is a thrilling driving experience in store.

NEW SPINDLE BODY DESIGN, COUPÉ-LIKE ROOFLINE

Its new 'spindle body' design, stretched bonnet and large 21" wheels lend the 5th generation RX immense confidence. This is juxtaposed by the new signature grille that blends into the front face of the car and the sleeker triple LED headlights that underline the bold overall look. For a coupé-like roofline, the signature black rear pillar (that creates what we call a 'floating roof') is now more three-dimensional in appearance, while extra dynamism comes from the RX's longer wheelbase and sculpted character lines.

To the rear, the single-line LED Lexus signature light combines with the wider track to embolden the car's stance and road presence. The introduction of the new "LEXUS" badge on the tailgate creates a clean and contemporary look. Fittingly, the RX's colour designers drew on new and exciting hues to capitalise on its stylish appearance, among them a striking Sonic Copper.

FEEL EXHILARATED

“For the all-new RX range we were determined to keep the Lexus DNA of supreme quality, ride comfort and refinement and elevate the driving experience to the next level, delivering a unique Lexus driving signature.”

KOJI SATO,
PRESIDENT OF LEXUS INTERNATIONAL

DRIVES LIKE NO OTHER

BEHIND THE WHEEL, THE RX PROVES ITS APPEAL
IS MORE THAN SKIN DEEP.

Visually striking, with comfort levels that are class-leading, the all-new RX also harbours a hidden beauty. Powering this car is a completely new suite of flexible electrified powertrains that you will find in no other luxury SUV. Each with its own distinctive blend of power and efficiency to suit the driver's taste and lifestyle. And each delivering a drive experience that is unmistakably Lexus.

THE WAY TO POWER

Setting a new benchmark for electrification, the RX 450h+ Plug-in Hybrid not only boasts up to 65 km* (combined cycle) of all-electric driving in EV mode but offers all the benefits of a Lexus Self-Charging Hybrid when the EV battery is depleted.

PEERLESS LEXUS DRIVING SIGNATURE

And there's more. Coupled with a new lighter yet more rigid platform, lower centre of gravity and new multi-link rear suspension, these electrified drivetrains are producing more than just consummate power and extraordinary efficiency. They're creating a totally natural dialogue between car and driver, an immersion in comfort and refinement yet equally an exceptionally engaging and rewarding driving experience. It's the best ever execution of our Lexus Driving Signature.

* WLTP figures. For more information regarding the new WLTP test method, please visit: www.lexus.ie/legal/wltp#nedc

ENJOY A UNIQUE STYLE OF LUXURY

THE INTERIOR OF THE ALL-NEW RX BLENDS TRADITION WITH
FUTURE, CREATING A UNIQUE STYLE OF LUXURY.

'Omotenashi' is a word you hear a lot at Lexus. This ancient Japanese philosophy of hospitality centres around anticipating a guest's needs even before they arise. Slide inside the RX's luxury cabin and you can tell the famed Lexus Takumi craftspeople have been at work, bestowing a deep sense of Omotenashi on driver and passengers in equal measure.

DRIVER-FOCUSSED COCKPIT

First there's the driver-centred 'Tazuna' cockpit, with interfaces such as the large Head-Up Display* and intuitive instrument layout to ensure relaxed concentration on the road ahead. Then, there's the varied ambient lighting from a palette of no fewer than 64 colours, imbuing the cabin with an ambience tailored to your mood.

Beautifully purposeful and intuitive, the RX interior contributes to a feeling of spaciousness, with more legroom and cleaner design throughout. Even the e-Latch door handles allow smoother operation and a futuristic look. The finest materials in the hands of experienced artisans have created an environment of contemporary luxury. You can also enjoy sumptuous semi-aniline leather seats and wood inserts on Premium grade and smooth leather on Luxury grade. This is a Lexus kind of luxury.

FIRST CLASS TRAVEL

For the passenger, the emphasis is on well-being and stylish luxury, a hallmark of the RX for many years and now raised to new levels. Alongside top-class accessibility and excellent support, the Takumi-crafted seating offers comforts like heating and ventilation. Passengers can also enjoy the soothing excellence of the 21-speaker Mark Levinson® Premium Surround Sound audio*, a system carefully optimised for the RX's interior architecture.

* Feature is grade dependent

PARAGON OF SAFETY

PROTECTING YOU, YOUR PASSENGERS AND FELLOW ROAD USERS,
IS THE GOAL OF OUR PIONEERING LEXUS SAFETY SYSTEM +.

All Lexus models tested have been awarded a 5-Star EURO NCAP safety rating. Nothing matters more at Lexus than your safety. And it shows in the all-new RX. Harnessing the latest in artificial intelligence and smart technology, our engineers have created an SUV that reassures at every turn. It's like having a trusted companion by your side, dedicated to the protection of you and your passengers.

NEXT LEVEL SAFETY

The enhanced third generation Lexus Safety System+ gives you constant support, monitoring the road ahead, alerting you of impending danger and, where required, intervening in milliseconds to avoid collisions. The system can help you avoid more accidents than previously, whilst the new Proactive Driving Assist supports you in driving more safely and even intervenes to assist avoiding unexpected pedestrians and obstacles.

Also new is Driver Monitor, which will emit an alert, or may even decelerate and stop, if it detects you are drowsy or distracted at the wheel. Meanwhile, the award-winning Safe Exit Assist automatically prevents doors from opening if traffic like cars or bicycles is approaching too close from behind, while Bladescan® AHS headlight technology* allows the driver to identify pedestrians at a greater distance at night-time.

VIEW TO THE CITY

Driver support features abound in the new RX. For easier driving in confined spaces, the Digital Panoramic View Monitor creates a virtual 3D image of the RX, displaying the scene from above, with on-screen guides to assist close-quarter manoeuvring. Side Clearance View helps you judge distances when passing another vehicle on a narrow road.

* Feature is grade dependent

WELCOME TO LEXUS LINK

A WORLD OF MULTIMEDIA AND BREAK-THROUGH CONNECTIVITY ENRICHES YOUR LIFE WITH THE RX IN A MYRIAD OF WAYS.

With the new RX, luxury goes beyond the tactile pleasures of sumptuous seats. Luxury is equally the peace of mind that comes from knowing you will reach your destination on time, in the most enjoyable, stress-free manner. And it is the seamless interaction of audio, navigation and online services for driver and passengers, enhancing each journey you make.

Welcome to Lexus Link Multimedia, a new world of connectivity created to complement our unique 'Omotenashi' service philosophy. With an extra-large 14" touchscreen, advanced voice recognition and smartphone integration, Lexus Link Multimedia offers an exceptionally fast and easy-to-use in-car experience. Meanwhile, the Lexus Link app on your smartphone helps you improve your hybrid driving style and track your journeys. Transform your everyday with the new RX, both professionally and privately.

RAISING THE STANDARD FOR CONNECTIVITY

The clever Lexus Link app boasts an array of connected services as standard. Driving Analytics tracks your journeys and highlights business trips. Find my Car guides you back to your car. You even receive notifications if you leave a window open or forget to switch off the headlights. And from the comfort of your home, you can remotely defrost the RX's windscreen, pre-set the air conditioning temperature, activate hazard warning lights or even lock and unlock your car. What's more, with the Premium Connectivity pack, you enjoy cloud-based navigation with Voice Assistant, Road Events & Real Time Traffic information and parking availability.

MAXIMISING YOUR PLUG-IN HYBRID EXPERIENCE

For maximum EV performance, you can monitor the charge level and range of the RX 450h+ Plug-in Hybrid remotely, on your mobile. Lexus Link Multimedia can locate charging stations across Europe on the in-car touchscreen, while the Lexus Link app allows you to check availability, charging speed and price. Easy to use, you'll even receive a monthly overview of charging sessions.

NEW 14" TOUCHSCREEN

Lexus Link Pro on the new RX has been designed for maximum user engagement and exceptional speed and ease of use. At its heart is the 14" High Definition touchscreen. One of the largest available, it is perfectly positioned for easy interaction while you drive. As well as accessing information like navigation, audio and climate control, you can also display your smartphone* apps via wired Android Auto® or wireless Apple CarPlay™**.

LEXUS VOICE ASSISTANT

Artificial Intelligence and the cloud work together in the clever Lexus Voice Assistant, which spares you grappling with buttons while you're concentrating on the road ahead. The newly developed system understands natural language and the context of statements such as "I'm hungry" or "I'm cold" and can even recognise which passenger is speaking. Without taking your hands off the wheel, Lexus Voice Assistant allows you to interact in more than 100 different ways across phone, navigation, audio, vehicle controls such as AC or seats, and cloud.

* Compatible smartphones only

** Apple CarPlay™ is a trademark belonging to Apple Inc. Apple CarPlay is an application provided by Apple Inc. The functions and services of Apple CarPlay may be changed or terminated without notice due to specification changes of the operating system, hardware, software, or Apple CarPlay

FEEL PIONEERING

POWERING THE DREAM

In the 1990s, thirsty petrol or diesel engines were the unchallenged norm for luxury cars. As the millennium turned, the world was waking up to global warming and the need to reduce emissions through electrification. A new drivetrain solution was required. And the first luxury carmaker to step up to the mark was Lexus.

With all key hybrid components developed and manufactured in-house, our electrified hybrids have proved themselves to be uniquely refined, exhilarating to drive and exceptionally strong.

Two decades on, our dream at Lexus of low-emission luxury travel has long become a roadmap. And with each electrified car we launch, the final destination edges ever closer.

FEEL PROGRESSIVE

A PIONEER AND LEADER IN LUXURY CAR ELECTRIFICATION

Since the launch of our first luxury sedan over 30 years ago, Lexus has become a synonym for exceptional design, quality and refinement. Perhaps most importantly, we're also a pioneer and leader in luxury car electrification. A company that never stops innovating and working to anticipate drivers' needs. It's this unique approach that resulted in the world's first luxury hybrid in 2005 - the RX 400h SUV.

SELF-CHARGING HYBRID, PLUG-IN HYBRID OR ALL-ELECTRIC

Today, Lexus offers Self-Charging Hybrid, Plug-in Hybrid and All-Electric models, with the majority of premium hybrids on the road sporting the Lexus badge. No other luxury carmaker can rival our experience in developing, building, servicing and recycling hybrids. Our Self-Charging Hybrids do not require plugging in and are capable of driving in Electric Vehicle (EV) mode, using no petrol.

Spearheading our new 'Lexus Electrified' vision, we introduced the first all-electric Lexus, the UX 300e. Marking the next chapter of electrification, the first Lexus Plug-in Hybrid, the NX 450h+, has extended our electrified line-up even further, along with the RZ 450e, built on a dedicated electric vehicle platform.

THE FUTURE IS 'LEXUS ELECTRIFIED'

Despite the tremendous success of the Lexus Self-Charging Hybrid range, resting on our laurels is not an option. Which is why we launched the 'Lexus Electrified' vision and the LF-30 'electrified' concept. Created to transform driving enjoyment to the next level, 'Lexus Electrified' is an integrated approach to electric powertrains, advanced posture control and other electrification technologies. Demonstrating our vision, the LF-30 'electrified' concept's bold exterior and driver-centric cockpit embody everything that 'Lexus Electrified' stands for. Benefitting from over two decades of electrification experience, with its four in-wheel electric motors, steering-by-wire and Lexus Advanced Posture Control, it delivers a driving experience like no other.

Discover more: www.lexus.ie/electrified

FEEL MORE RESPONSIBLE

WHAT IS A LEXUS PLUG-IN HYBRID?

In the all-new RX 450h+, our breakthrough Lexus Plug-in technology allows you to enjoy up to 65 km (combined cycle) of emissions-free driving in Electric Vehicle mode with amazing refinement and powerful acceleration from a single charge, carried out at home or on the go. But that is only half the story. Once the lithium-ion battery drops below a certain charge level, the car's Lexus Self-Charging Hybrid powertrain then comes into its own, providing an unbeatably efficient drive in hybrid mode, with low fuel consumption and emissions, irrespective of how long your journey is. This compelling combination of powerful Self-Charging Hybrid performance with excellent electric range is the result of more than 15 years of Lexus leadership in electrification.

WHY IS ELECTRIFICATION IMPORTANT?

In order to curb greenhouse gases, we believe that effective vehicle electrification is essential. Since the launch of the RX 400h in 2005, the world's first electrified luxury car, Lexus has taken the initiative in developing and promoting the widespread use of advanced self-charging hybrids. As well as reducing the emissions of our cars, by 2050 we plan to achieve ever lower CO₂ emissions from all Lexus manufacturing plants and minimise their water usage.

WHAT IS IT LIKE TO OWN A LEXUS PLUG-IN HYBRID?

With the RX 450h+, we worked tirelessly to ensure your Lexus Plug-In hybrid is a joy to drive and own. With over 500,000 Lexus hybrids on European roads today, all are built in a dedicated ultra-modern production plant in Japan to the exacting quality standards that consistently net Lexus hybrids reliability awards across the globe. Aside from the striking smoothness and refinement, you'll appreciate substantially lower running costs - not just fuel, but reduced expenditure on brakes and other components, thanks to the regenerative braking and advanced power control systems.

LEXUS PLUG-IN HYBRID

Our new Lexus Plug-in Hybrid drivetrain combines the advantages of 4th generation Lexus Self-Charging Hybrid and Lexus Electric Vehicle (EV) technology. The 'plus' in the RX 450h+ name pays tribute to the car's extra-powerful lithium-ion battery and superior range in EV mode.

65 KM RANGE IN EV MODE

The RX 450h+'s four-mode selector ensures your journey is always smooth and fun. The EV default setting maximises battery use, allowing you to travel up to 65 km (combined cycle). Powered by an advanced 18.1 kWh lithium-ion battery, you can enjoy near-silent, all-electric driving up to 135 km/h.

ACCELERATION ON DEMAND

In Auto EV/Hybrid mode, and depending on how hard you depress the accelerator, the powerful petrol engine will spring to life and deliver rapid linear acceleration just when you need it, letting you reach 100 km/h in 6.5 seconds.

CHARGES ON THE GO

If you urgently need to charge your battery, you can use Battery Charging mode to top it up.

EXPERIENCE FROM 2 MILLION HYBRIDS

Benefiting from our 4th generation Lexus Self-Charging Hybrid technology, the system will switch to ultra-efficient Hybrid mode if the battery's charge level drops while in EV or Auto EV/Hybrid mode, thus ensuring you enjoy full vehicle power again.

PLUG IN AT HOME OR AWAY

For maximum EV range and performance, you can top up the battery at your own Lexus home charging station or at a public charging point. The Lexus Link Multimedia shows you the location, availability and even cost per km at stations across Europe.

MODEL

RX 450h+

PLUG-IN HYBRID

Exceptionally quiet and boasting overall CO₂ emissions as low as 24 - 26 g/km, the RX 450h+ Lexus Plug-in Hybrid raises the bar for a 'no compromise' electrified vehicle. With 309 DIN hp of power, it offers thrilling acceleration of 0 - 100 km/h in 6.5 seconds, thanks to a large-capacity plug-in hybrid system that combines a 2.5-litre petrol engine with a motor/generator and 18.1 kWh lithium-ion battery. Alongside a class-leading electric range of up to 65 km (combined cycle), the RX 450h+ can reach up to 135 km/h in EV mode.

RX 450h+ | PLUG-IN HYBRID

2.5-LITRE PETROL ENGINE

The RX 450h+'s all-new 2.5-litre petrol engine achieves a world-class thermal efficiency of 41%. And because this is a plug-in hybrid, overall CO₂ emissions are reduced to an incredibly low 24-26 g/km (depending on grade).

PRECISION-ENGINEERED TRANSAXLE

The RX 450h+'s hybrid transaxle provides a highly competitive blend of low fuel consumption and exciting driving. Comprising a super-smooth geartrain and 182 DIN hp motor/generator, it not only powers the front wheels, but produces electricity during braking, driving or coasting.

E-FOUR

The E-FOUR electric all-wheel drive system available on the new RX 450h+ has been upgraded so that the 40 kW rear electric motor is always operational, providing more torque and greater traction.

POWER CONTROL UNIT (PCU)

The new PCU is tailored to the high-capacity lithium-ion battery. With the DC/DC converter under the rear seat, a boost converter has been added, realising higher output yet compact size. Mounted directly above the transaxle to reduce bonnet height, an 8-layer structure houses the circuitry required for plug-in hybrid control.

LITHIUM-ION BATTERY

To allow for a spacious cabin, 461 litres of luggage space and a low centre of gravity, the powerful 18.1 kW lithium-ion battery is installed under the cabin floor. This new battery pack uses 96 high-capacity lithium-ion battery cells, achieving a range of up to 65 km in EV mode (combined cycle).

BATTERY COOLING / HEATING SYSTEM

Lexus engineers developed a sophisticated battery cooling system for the RX 450h+. Safer, more compact and lighter than water-cooled systems, refrigerant cools the battery, thus improving performance, efficiency and battery life. And because output decreases in cold weather, electric heaters are fitted under the battery stacks.

AC CHARGER PORT

In addition to an AC charging inlet on the right rear-quarter, the new RX 450h+ is fitted with an onboard charger with 6.6 kW maximum output.

GRADES

LUXURY

- 21" alloy wheels, 20-spoke, machined finish 235/50 R21 tyres
- Headlights, triple LED with Automatic High Beam (AHB)
- Smooth Leather upholstery with Black Hologram inlays
- Heated and ventilated front seats
- 3-spoke, leather trimmed, heated steering wheel
- Lexus Link Pro with 14" touchscreen display and embedded navigation*
- 12-speaker Pioneer® audio system
- Panoramic Glass Roof with Tilt and Slide
- Power Back Door with Kick Function
- Blind Spot Monitor
- Lane Change Assist

PREMIUM

- 21" alloy wheels, 20-spoke, Dark Premium metallic 235/50 R21 tyres
- Headlights, triple LED with BladeScan® Adaptive High-beam System (AHS)
- Adaptive Variable Suspension (AVS)
- Semi-aniline leather upholstery with Ash SUMI Walnut inlay
- Heated and Ventilated front and rear (outer) seats
- Shoulder switch for front passenger seat adjustment
- 3-spoke, leather and wood trimmed, heated steering wheel
- Lexus Link Pro with 14" touchscreen display and embedded navigation*
- 21-speaker Mark Levinson® Premium Surround Sound System
- Head-Up Display (HUD)

* Premium Connectivity pack is included with Lexus Link Pro for the first 4 years of ownership, and renewable thereafter on a subscription basis.

01. LUXURY 21" ALLOY WHEELS

Crafted for Luxury grade, this 20-spoke 21" wheel with a striking metallic finish and machined details, endows the new RX with a look of unmistakable distinction.

02. PREMIUM 21" ALLOY WHEELS

Designed for Premium grade, the premium dark-grey metallic finish perfectly complements this bold 20-spoke 21" machined wheel.

03. NEW SPINDLE BODY / SIGNATURE GRILLE

Moving towards electrification, our designers undertook the challenge of incorporating the new 'spindle body' design identity into the new RX. This resulted in improved grille integration that expresses a sense of electrified power and a low centre of gravity. More compact and sleeker headlights, air intakes and a wider track (20 mm) further consolidate the stable, confident look.

04. TRIPLE LED BEAMS / FULL DRL

Sleeker, sharper and more horizontal, these stunning 3-projector LED headlights are available with Automatic High Beam* or BladeScan®* Adaptive High-beam System (AHS)*, conveying a highly distinctive impression in a simple design. The light is highlighted by the Lexus Signature L-shaped DRL.

05. LEXUS SIGNATURE REAR BLADE LIGHT

To the rear, a stylish new Lexus signature blade light, with a distinctive L-shaped lighting design, spans the entire width of the new RX. This single-line Lexus signature taillight underlines the car's iconic shape, while the wider track (65 mm) emboldens the stance and road presence.

06. NEW LEXUS REAR LOGO

Creating a modern and easily recognisable new look, the redesigned LEXUS logo is located at the centre of the vehicle and the model logo on the lower right.

07. "FLOATING ROOF" DESIGN, REAR PILLAR

Lending the car a coupé-like profile, the black rear pillar is now more 3D in appearance.

08. PANORAMIC ROOF

Available in combination with roof rails, the impressive glass roof can now be opened to allow more air into the interior. Providing both extra headroom and sunshine in the cabin, it is fitted with an electric sliding blind to counter intense sunlight.

09. E-LATCH

Inspired by the grace of Japanese Shoji doors, and available on the RX, E-Latch is a switch-activated and powered door release system that allows you to open your door in one smooth movement.

10. POWER TAILGATE (HANDS FREE)

An exceptionally fast and responsive remote-controlled tailgate ensures convenience, especially when your arms are full of shopping. With the key in your pocket or bag, simply place your foot under the rear bumper to open or close the tailgate.

* Feature is grade dependent

01. TAZUNA COCKPIT

To make the cockpit even more driver-centred, Lexus developed the Tazuna design concept. Taking its name from the Japanese word for 'reins of a horse', Tazuna focuses on direct yet intuitive control. Information sources like the multimedia screen, multi-information display, single-dial meter, centralised gauges and Head-Up Display* are grouped so their content can be read with minimal eye and head movement. Likewise, main switches and controls like Drive Mode Select can be easily accessed too.

02. SCULPTED STEERING WHEEL

As the steering wheel and gearshift can significantly affect the driving experience, designers worked together with a Lexus 'Takumi' craftsman to thoroughly refine these points of contact. For the steering wheel, special focus was placed on the shape and cross-section to give an excellent feel and enhanced steering stability. The thumb rests and touch-sensitive switches were also redesigned.

03. TAKUMI-CRAFTED CABIN

A powerful blend of Tazuna cockpit design and luxury SUV spaciousness, with materials like high-quality leathers and Takumi-crafted suede embossed with the Lexus 'L', this is precisely the bespoke look the Lexus interior designers envisaged inside the all-new RX.

04. NEWLY DESIGNED CABIN AND SEATS

The RX designers sought to create a minimalist, yet intuitive and thoughtful interior space using the highest quality materials. The front and rear seats have been redesigned to offer top-class accessibility, support and heating/ventilation**. To provide proper ergonomic support around the waist, a concave shape was created in the seat sides.

05. FLEXIBLE SPACE

The new RX offers both ample luggage space and five luxury seats with excellent legroom. Thanks to the couple distance of 1,010 mm (an increase of 10 mm on the previous model), newly designed seats and more intelligent packaging, the RX feels roomier inside. With the loading height lowered by 30 mm, the boot is easier to use, while the luggage compartment is 50 mm longer, thanks to intelligent tailgate design. This extra length allows bulkier objects to be carried, whilst the 40:20:40 split rear seats can accommodate lengthy items like skis or surfboards.

06. 3-ZONE CLIMATE CONTROL

The S-Flow climate control intelligently adjusts the interior climate according to ambient conditions, ensuring excellent fuel economy and optimal 3-Zone comfort for driver, front-seat passenger and rear-seat passengers.

07. LEXUS OMOTENASHI WELCOME

As you open the driver's door, the RX's instruments display the vehicle silhouette and welcome you by name. When you depress the brake pedal, the Power button begins to gently pulsate, the cockpit comes to life with graphics and sounds coordinated across the instruments, and the Head-Up Display and 14" screen direct your attention on the road ahead.

08. AMBIENT MOOD SELECTOR

With the new Lexus Mood Select feature, you can tailor the RX's ambient lighting to your own mood, from a palette of 64 colours. Based on our L-finesse design philosophy, Lexus interior designers have developed fourteen colours that express the emotions and feelings felt when witnessing beautiful natural phenomena. The colours aim to provide a spirit of 'Omotenashi' hospitality and include themes such as:

- Healing: Serene hues create a 'healing' space in which the energy of the green natural world and the power and dynamism of life coexist
- Relaxing: Warm hues create a 'relaxing' space full of vitality, resonating with the momentary transitions of the sunlight and the heartbeat of the earth
- Arousing: White tones create an 'arousing' space in which invigorating sunlight through the day smoothly awakens the mind
- Focusing: Mystical cool hues create a 'focusing' space for the mind, evoking the passage of time and transient states of the natural world
- Exhilarating: Pure fire-like tones create an 'exhilarating' space for the driver, evoking the process of a flame changing temperature

* Feature is grade dependent

** Rear seat heating & ventilation exclusive to Premium grade

01. LEXUS LINK PRO

Much faster and easier to use, the extra-large 14" touchscreen comes with Lexus Link Pro and embedded hybrid navigation.

02. EXTRA LARGE 14" TOUCHSCREEN

Perfectly positioned for relaxing interaction while you drive, this 14" High Definition touchscreen is one of the largest available in this category of car and allows you to access information like navigation, audio and climate control.

03. "HEY LEXUS" VOICE ASSISTANT

Artificial Intelligence and the cloud work together in the clever Lexus Voice Assistant, which spares you grappling with buttons while you're concentrating on the road ahead. This newly developed "Hey Lexus" voice assistant understands natural language and the context of statements such as "I'm hungry" or "I'm cold" and can even recognise which front passenger is speaking. You can also customise your trigger name or ask the Lexus Voice Assistant to perform tasks like opening a window.

04. ONLINE SERVICES

To enhance your driving experience, web services such as online traffic, on-street & off-street parking real-time availability, weather forecasts and access to your web browser are all provided.

05. SMARTPHONE INTEGRATION

With wired Android Auto® or wireless Apple CarPlay™, the new RX allows you to easily display and access many of your smartphone's apps on the 14" touchscreen display.

06. LEXUS LINK CONNECTED SERVICES

Welcome to the Lexus Link app, a new world of connectivity created to complement our unique 'Omotenashi' service experience. Its smart and bespoke features help you plan a journey, find a parking space or even improve your driving style. Transform your time with the new RX, using services like:

- Driving Analytics: Tracks your journeys, driving style and lets you record business trips
- Hybrid Coach: Helps you drive your RX 450h+ more efficiently
- Find my Car: Locates and guides you back to your Lexus
- Warning Lights: Explains the meaning of each warning light and any action you should take

- Car status: Notifies you if you've left the car windows open or forgotten to switch off the headlights. You can also check if your car is locked
- Battery Guard: Monitors the charge level of your car's 12V battery
- Remote Control: Remotely defrost your windscreen, activate hazard warning lights or lock and unlock your RX, from the comfort of your home

07. LEXUS LINK PREMIUM CONNECTIVITY

As an RX owner, you enjoy all the benefits of the Lexus Link Premium Connectivity pack. It includes features such as:

- Cloud-based navigation & Voice Assistant
- Road Events & Real Time Traffic information
- On- and off-street parking availability
- Remote Climate*: Remote control of air conditioning, steering wheel heating, seat heating and adjustment of the cabin temperature

08. LEXUS LINK CONNECTED SERVICES FOR THE RX 450h+

For a seamless electrified experience, you can monitor the charge level and range of your RX 450h+ remotely, on your mobile. If you subscribe to the Lexus Charging solution, Lexus Link also locates charging stations across Europe, allowing you to check availability, charging speed and price and offers services like:

- Remote control and scheduling of charging
- Access to an extensive European network of public charging facilities
- Charging station availability, charging speed and price per kWh

* Remote climate control features may not be available in your area based on local legislation. Please consult your Lexus retailer information on which are available in your Country and for your car model

01. EXTRA-WIDE 10" HEAD-UP DISPLAY*

Vehicle data is projected in colour directly onto the windscreen. This 10" Head-Up Display lets you check navigation, safety features, information and audio settings without taking your eyes off the road. Operation is easy, thanks to touch switches on the steering wheel.

02. MULTI-INFORMATION DISPLAY

This colour TFT (Thin Film Transistor) display is integrated into the main driving instruments and keeps you informed about all key data including safety warnings and navigation directions. For a more dynamic and engaging experience, the display will also adjust its look and content depending on which driving mode you are in.

12-SPEAKER PANASONIC® AUDIO*

Creating sublime high-end sound and crisp tones, a high-quality 12-speaker Panasonic® audio system is available on the new RX. To the front, 9 cm instrument panel speakers are angled to achieve a rich tone and reflect sound off glass, enabling clear and vivid vocal playback. A state-of-the-art bamboo charcoal plant opal diaphragm has been developed for the mid-range speaker, coaxial speaker and woofer. Expressing tight low tones and a live sound, a 20 cm box subwoofer is installed in the luggage compartment. To realise high-resolution live sound, compressed sources are transformed to enable high-resolution playback.

03. 21-SPEAKER MARK LEVINSON®*

Only available in Lexus cars, in 2022 Mark Levinson® celebrates 50 years crafting some of the world's best audio systems - a journey that began at the Woodstock festival, where a 22-year-old Mark Levinson® built the mixing board for legends like The Who, Santana and Jimi Hendrix. The near-silent RX cabin provides the perfect setting for the bespoke new 21-speaker Mark Levinson Premium Surround Sound audio. Standard on higher grades and developed by our exclusive audio partners, the system is optimised for the car's interior architecture. Delivering a peerless 7.1-channel home-theatre experience using a new 3D Surround Mark Levinson® Surround System and Quantum Logic Immersion, ClariFi analyses the compressed sound source and complements lost data for exceptional sound quality. Enhancing the concert hall experience even further, a 22 cm subwoofer in the luggage compartment produces rich and powerful sound, vividly expressing the atmosphere and contour of the original music.

04. WIRELESS CHARGER / 6 USB SOCKETS

You can charge compatible smartphones or other electronic devices using the inductive wireless battery charger. 50% faster than before, it is conveniently positioned in the centre console pocket. To keep your devices charged and connected, the RX has 6 USB sockets of which 5 are for charging and one for data transfer.

* Feature is grade dependent

01. 3RD GENERATION LEXUS SAFETY SYSTEM +

The all-new RX benefits from the advanced active safety and driver assistance systems featured in the latest 3rd generation of Lexus Safety System +, with upgraded and additional functions offering increased accident risk detection. These include Proactive Driving Assist with steering assist and a new Driver Monitor to check drivers for signs of fatigue or distraction. Additionally, Proactive Driving Assist uses the front camera to determine the angle of a bend, adjusting the steering force when approaching a turn.

02. ENHANCED PRE-COLLISION SYSTEM

Alongside detecting motorcycles during daytime, the enhanced Lexus Pre-Collision System allows more potential collisions to be avoided, such as at left/right turns, and with cut-in traffic. It can also recognise collision risks with oncoming traffic or crossing pedestrians when making a turn at a junction. The ability to avoid impacts is increased by Emergency Steering Assist.

03. DYNAMIC RADAR CRUISE CONTROL

This system uses a millimetre-wave radar sensor and camera to detect the vehicle in front and maintain an appropriate distance. If the vehicle in front comes to a halt, the RX will stop too. When the vehicle moves off again, you will too. It quickly recognises traffic cutting in front and, in conjunction with Lane Trace Assist, follows a more natural line through bends. Dynamic Radar Cruise Control will also prevent you from driving inside a slower vehicle driving in the outside lane.

04. EMERGENCY STEERING ASSIST

Should you try to avoid a pedestrian close to or in your driving path when a collision is imminent, Emergency Steering Assist will support your steering movements to enhance the car's stability and prevent accidental lane departure.

05. PROACTIVE DRIVING ASSIST WITH ACTIVE STEERING ASSIST

Equipped with our latest Obstacle Anticipation Assist system, the RX's pioneering new Proactive Driving Assist with Active Driving Assist technology, monitors road users and objects ahead, and proactively controls brakes and steering to keep a safe distance from them. Additionally, Deceleration Assist helps you when releasing the accelerator before a bend or preceding vehicle, allowing smoother and safer deceleration. The system also detects curves ahead and adjusts the steering assist force to facilitate safe and precise steering.

06. LANE TRACE ASSIST

Advanced Lane Trace Assist helps keep the RX in the centre of the lane, uses 'natural lane trace' functionality and also provides assistance when driving around bends.

07. EXTENDED SAFETY PACKAGE

While Lexus Safety System + is fitted as standard on all European models, owners will now also benefit from the Extended Safety Package which adds selected autonomous driving features. These include the new Lane Change Assist and Front Cross Traffic Alert . On motorways, with activation of the turning signal as a cue, the latter allows the RX to perform automatic lane change using Dynamic Radar Cruise Control. Front Cross Traffic Alert assists in making driving safer at intersections by detecting approaching vehicles from left or right which might be hidden in blind spots and warns the driver via the Head-Up Display and the central multimedia display.

08. ROAD SIGN ASSIST

Upgraded Road Sign Assist (RSA) recognises traffic signs and provides information to the driver via the multi-information display. When linked to Dynamic Radar Cruise Control, the car's speed can be adjusted according to the speed limit recognised by RSA.

09. AUTOMATIC HIGH BEAM*

Automatic High Beam detects oncoming vehicles at night and automatically dips the high beam headlights, reducing the danger of accidentally dazzling other drivers and allowing you concentrate on the road ahead.

10. BLADESCAN® ADAPTIVE HIGH-BEAM SYSTEM*

Our pioneering BladeScan® Adaptive High-beam System (AHS) gives drivers an enhanced field of vision compared to conventional LED headlights. It works by projecting light from twelve LEDs onto a blade-shaped mirror rotating at 6000 rpm and then through a lens to produce a wide headlight beam. Exhaustive tests show that pedestrians and road signs can be seen earlier and without the risk of dazzling other drivers.

01. 12 SRS AIRBAGS

In addition to an immensely strong passenger safety cell, occupant protection is enhanced by 12 SRS airbags: a dual-stage airbag and knee airbag for the driver; single-stage airbag for the front passenger; centre airbag to reduce contact between the driver and front passenger; side airbags on the front seats and curtain shield airbags that run the full length of both cabin sides.

02. DRIVER MONITOR

Driver Monitor uses a camera mounted above the RX's steering wheel to constantly check the condition of the driver. The system is even able to slow or stop the car if driver fails to react to alerts.

03. DIGITAL PANORAMIC VIEW MONITOR

For easier driving in confined spaces, the Digital Panoramic View Monitor provides a live 360° view around and pre-recorded view under the car. It also creates a virtual 3D image of your RX, showing the vehicle as if seen from above, with on-screen guides to assist close-quarter manoeuvring and offers the following features:

- Side Clearance View lets you check the clearance when passing another vehicle on a narrow road.
- Cornering View helps avoid mounting curbs when cornering.
- Front Cross Traffic Alert warns of approaching vehicles and obstacles ,at the front and sides of the car.
- Pre-Collision System & Parking Support Brake warns of a possible collision and will even take preventive action.
- A view under the RX helps you drive on rougher surfaces.

04. BLIND SPOT MONITOR

Blind Spot Monitor detects vehicles in adjacent lanes that are not visible in the door mirrors up to 60 metres behind your RX. If the driver indicates to change lane and a vehicle enters the blind spot, a warning signal appears in the relevant door mirror.

05. REAR CROSS TRAFFIC ALERT

Rear Cross Traffic Alert helps avoid parking collisions during low-speed reversing. The system monitors the area at the rear of the RX and adjusts speed if it judges there is a possibility of contact with a vehicle. When necessary, the system alerts you with a buzzer, a warning on the 14" display and door mirrors and will even brake if required.

06. SAFE EXIT ASSIST

The RX's e-Latch electronic entry and exit system is linked to the car's Blind Spot Monitor. The exclusive Safe Exit Assist function prevents the occupants from opening the door in the event of traffic such as cars or cyclists approaching from the rear. Lexus estimates this system can help prevent more than 95% of the accidents caused by door opening.

02

03

Check surroundings for safety.

04

05

06

01. EXTREMELY STRONG PLATFORM

The new RX is built on our GA-K platform, similar to that of the NX, but with a distinctive set up: the rear has been redesigned to extend the wheelbase but also integrate additional cross members and braces to increase rigidity. This extra rigidity has allowed Lexus engineers to tune the suspension more accurately, improving both performance and comfort. This new platform is 90 kg lighter, and has a 15 mm lower centre of gravity. Whilst the wheelbase is extended by 60 mm yet maintaining the overall length and reducing the yaw, the track is wider and the wheels larger, making for a more confident stance and grip.

02. LIGHTER, QUIETER, PERFECT SOUND

To save weight on the new RX, Lexus engineers used advanced materials like 2GPa high-tensile steel material for the centre pillars and aluminium for the wings and bonnet. The new structure also includes 1180 MPa steel for rocker reinforcement and 1470 MPa steel for roof rigidity. While ensuring Lexus-like quietness inside the cabin with sound-damping and vibration reduction measures, the team created sounds to add a sense of power and performance. They also perfected the luxury car door sound.

03. ADAPTIVE VARIABLE SUSPENSION*

Enabling a substantial hike in performance, the RX's new multi-link rear suspension delivers superior lateral stability and anti-squat characteristics. Capable of handling higher levels of torque, it also substantially reduces noise, vibration and harshness. Specially tuned to enhance drivability and handling around fast corners, Adaptive Variable Suspension (AVS) controls the damping force on all four wheels.

04. ADVANCED AERODYNAMICS

The new RX boasts excellent aerodynamics, thanks to a near-flat underbody and extensive wind tunnel testing. To refine airflow even further, Lexus designers and engineers worked on the shape of the lower front spoiler, airflow in the wheel arches, the shape of the car's sides and the lower rear bumper. The result is even greater vehicle stability, with reduced noise and drag. Lexus Chief Designer Suga-san calls this 'Functional Beauty'.

05. DRIVE MODE SELECT

Controlled via the 14" Touchscreen, Drive Mode Select allows you to maximise your car's efficiency, dynamism or refinement using Eco, Normal, Sport and Custom modes.

06. HILL-START ASSIST CONTROL

Hill-start Assist Control maintains brake pressure to help prevent the RX from moving backwards when starting off on a slope. Hill-start Assist Control also minimises wheel-spin on slippery inclines.

* Feature is grade dependent

01. INTERIOR PACK

Textile floor mat

Luxurious yet protective black textile car floor mats. Made of sound-absorbing acuvelour, they are shaped for a perfect fit and the driver's mat has dual safety fixings to prevent it slipping. A premium textile and leather floor mat is also available.

Trunk liner

Tailored to fit the boot of your vehicle and provide protection against dirt and spills. The design features a special anti-slip surface pattern to help stop luggage moving.

Safety kit

A complete and handy solution for those who like to have everything in one place - safety jacket, warning triangle and first aid kit.

02. PROTECTION PACK

Rear seat protector

The Rear Seat back Protector protects the back of the seat from dirt and spills when it's folded down to load longer items. The textured surface helps to prevent items from shifting and sliding.

03. SUV PACK

Side step

The side step gives you easy access to the roof accessories while enhancing the rugged appeal of your car.

Front & Rear Set Mudflap

Lexus mud flaps are especially shaped to fit the wheel arches of your vehicle. They help maintain your car's good looks by protecting against excessive dirt, mud spray and flying stone chips.

04. STYLING PACK

Chrome Side sills

Contoured to integrate smoothly with the side of your car. Creating an elegant and powerful appearance.

Chrome rear lower trunk garnish

A touch of class along the lower edge of your car's boot.

Illuminated scuff plates

Lexus scuff plates add a stylish design feature while also protecting the door sill paintwork. Their brushed aluminium finish is highlighted by subtle logo illumination

05. ILLUMINATION

Illuminated trunk scuff plate

The illuminated trunk scuff plate guards the paintwork in the boot area, with extra styling detail to complement your vehicle's design.

Door lamp (puddle lamp)

Stylish feature lighting for the easier access to your car. The white light automatically comes on when you open the front door. Adds not only reassuring convenience and safety on a dark night but also projects the Lexus logo beneath the open door.

06. TRANSPORT ACCESSORIES

Vertical Detachable Towing Hitch

The vertical detachable towing hitch has a tough anticorrosion surface and is designed so that you can easily attach and remove the tow ball at your leisure.

Cross Bars - Bike holder

These aerodynamic, lockable cross bars click easily into the roof rails on your Lexus RX. They are compatible with the panoramic roof and can be used with a wide range of other attachments.

Roof attachment - bike holder

This lockable, lightweight bike holder has special grips to secure both the bicycle wheels and the frame.

Fuel tank capacity (l)		55
Towing capacity max.unbraked / braked (kg)		750 / 2000

¹ Combined engine and electric motor.

² The fuel consumption and CO₂ values are measured in a controlled environment on a representative production model, in accordance with the requirements of the new WLTP European Regulation EC 2017/1151 and its applicable amendments. For each individual vehicle configuration, the final fuel consumption and CO₂ values may be calculated based on the ordered optional equipment. The fuel consumption and CO₂ values of your vehicle may vary from those measured or calculated values, as driving behaviour as well as other factors (such as road conditions, traffic, vehicle condition, tyre pressure, load, number of passengers, etc.) have an influence on a car's fuel consumption and CO₂ emissions. For more information regarding the new WLTP test method, please visit: www.lexus.ie/wltp#nedc

All emission figures are target values and subject to pending homologation.

³ Towing capacity does not include tow-bar or other towing equipment as standard.

Please note: Target values are shown. All figures are provisional and subject to change without notice. Further Technical Data, including any updates, can be found at www.lexus.ie

² The figure quoted applies with panoramic glass sunroof.

Please note: the dimensions illustrated above are measured in millimetres.

BE OUR GUEST

HOW WE TREAT OUR CUSTOMERS IS GUIDED
BY AN ANCIENT JAPANESE PHILOSOPHY OF
HOSPITALITY.

Translated from the Japanese as 'hospitality and polite service', Omotenashi is about much more than excellence of service; it is an ancient concept centred around anticipating the needs of another, even before they arise. Omotenashi influences how we design and engineer our cars at Lexus, and equally how we treat you, the Lexus owner. Not just at the point of sale but over the life of your car. We want you to feel valued in every interaction you have with us. To feel more than a customer.

Whether as a private or fleet driver, you'll experience Omotenashi each time you visit our showrooms. In the warm reception on hand from friendly staff intent on welcoming you as if you were a guest in their home. In the inviting atmosphere and impressive facilities of the lounge, where you can avail of refreshments, catch up on news, enjoy high-speed Internet or carry on with your work. And in the knowledge that our Lexus technicians are working with precision and efficiency to get you back on the road with minimum interruption to your day.

PEACE OF MIND WITH LEXUS RELAX*

Lexus Relax provides you with complete peace of mind even after your manufacturer's warranty expires. Drive away carefree with an extra 12 months warranty every year you service your Lexus with us.

LEXUS EASY MOBILITY SOLUTION*

From financing to maintenance, the Lexus Easy flexible mobility solution is the easy way to drive and look after a Lexus.

It's not only cars that make Lexus unique. It's the philosophy which permeates everything we do and which extends to an ownership experience that makes you feel special. Just as a guest should.

* Lexus Relax and Lexus Easy are not available for all markets.
Please enquire at your local Lexus Authorised Retailer.

DISCOVER MORE ONLINE

Find out more about the new RX Plug-In hybrid range, take time to explore which equipment grade best suits your lifestyle and learn about our world-class service and finance offerings. If you're interested in how the new RX feels to drive, you can also book a test drive online with your local Lexus Retailer.

<http://www.lexus.ie/rx>

© 2022 Lexus Ireland reserves the right to alter any details of specifications and equipment without notice. Details of specifications and equipment are also subject to change to suit local conditions and requirements. Please enquire at your local Lexus Authorised Retailer of any such changes that might be required for your area.

Note: vehicles pictured and specifications detailed in this brochure may vary from models and equipment available in your area. Vehicle body colour might differ slightly from the printed photos in this brochure.

For further information please visit our website: www.lexus.ie

Taking care of the environment is a priority for Lexus. We take many measures to ensure that during the lifecycles of our vehicles - from design, production, distribution, sales and service to end-of-life - their environmental impact is minimised. Your retailer will be happy to provide more information on end-of-life vehicle requirements.
